

Ecolamp Recycling Ltd are an independent company based in Warrington, Cheshire and specialise in two core areas:

- Ecolamp Recycling Ltd collect, recycle, prepare for reuse and dispose of Waste Electrical and Electronic Equipment (WEEE) ensuring as much waste as possible is reused and recycled.
- Ecolamp Recycling Ltd provide professional and practical advice to industry with regards to; legislation, Environmental Management Systems, Environmental Permitting, Planning and Site Investigation, offering Technically Competent Management training and assessment, and Project Management.

Ecolamp Recycling Ltd are committed to the continual environmental improvement of our operations and to the prevention of pollution.

To achieve this and in recognition of the potential benefits our operations could have on the environment, we will:

- **Maintain** an Environmental Management System (EMS) compliant with ISO 14001:2004,
- **Assess** the environmental effects of our activities and operations, with a view to preventing pollution and minimising any adverse environmental impact while optimising, where possible, environment benefit,
- Seek and **invest** in equipment and operations to incorporate Best Available Technology and practices,
- **Maintain** high quality operations, services and customer satisfaction,
- **Achieve** the highest possible environmental performance in all areas of our business,
- **Repair and reuse** as much WEEE as possible compliant with PAS 141:2011,
- Achieve the highest possible **recycling quality** of residual WEEE,
- **Comply** with all applicable environmental legislation and other requirements, and ensure our customers and clients do likewise,
- **Continually improve** through setting specific targets and objectives based on any significant environmental aspects of our business and **communicate** these to employees, and
- **Train** our staff and raise employee environmental awareness.

This policy will be reviewed annually and is publicly available to all interested parties on request.
